GOOD OF THE ORDER

ADJOURNMENT

NEXT MEETING – [May 14, 2025 - 8:30 a.m.](#)

OLYMPIC REGION CLEAN AIR AGENCY
2940 Limited Lane NW
Olympia, Washington 98502

Finance Committee Meeting – Hybrid via Zoom

January 8, 2025

A video recording of this meeting is available at:

<https://www.youtube.com/ORCAA>

Files discussed at this meeting are available at:

<http://board.orcaa.org/>

Members Present: Jim Cooper, City of Olympia
Greg Brotherton, Jefferson County (Chair) (via Zoom)
Randy Neatherlin, Mason County (via Zoom)

Members Absent:

Legal Counsel:

Staff Present: Jeff Johnston, Executive Director; Lynn Harding, Financial Services Manager;
Laura Crawford, Financial Specialist; Dan Nelson, Communications Manager
(via Zoom); and Debbie Moody, Office Manager/Public Records Manager

The meeting was called to order at 8:34 am.

APPROVAL OF AGENDA (:03)

Brotherton noted there were not additions or omissions on the agenda. Neatherlin moved approval of the agenda. The motion was seconded and carried unanimously. Johnston requested roll call.

APPROVAL OF MINUTES (2:14)

Brotherton asked for approval of the minutes. Cooper moved approval. The motion was seconded and carried unanimously.

NEW BUSINESS

FY2025 Budget – Second Quarter Update (2:34)

Harding noted we are in the second quarter of our budget. Harding briefly went over the revenues, highlighting a couple several line items under revenue. Harding briefly went over the expenditures. We do expect to have some savings due to being down 2 positions temporarily.

It was noted we have received about 52% of our revenues and have spent approximately 45% of our expenditures.

Johnston reminded the committee about funding OlyMAP and what they actually do. Neatherlin state he would support considering funding other similar projects throughout our jurisdiction. Johnston stated we are happy to be part of those conversations.

Harding went through the fund balance, noting we started the year with \$4,599,971 and we are currently at \$4,620,904. We have restricted funds of \$1,225,425 and our unrestricted fund balance is currently \$3,395,479.

Brotherton noted our investments are a little low and asked if we have a plan regarding these funds. Harding explained we have not received notice of our earnings for December but anticipate \$11,000. Cooper requested a copy of the RCW that dictates who we bank/invest with. There was no action from the committee.

Johnston wanted to alert the Board we are not expecting a budget amendment this year as was reported previously.

3-Year Budget Forecast-Follow-up Discussion (34:20)

Johnston reminded the committee we have been discussing how to use the penalties and large settlements. It had been requested that Harding set up a separate contingency fund and Johnston went over the forecast.

Johnston noted the forecast clearing shows our expenditures are growing faster than our revenues. Johnston briefly went over line items noting reasons for the disparity. Johnston noted he needs to work with staff and the board to get our revenues and expenditures more in line.

Brotherton asked if there was any discussion.

Neatherlin noted the forecast is why we need to separate the large penalty funds. Currently, we are relying on the penalties, and we need to look at other ways to balance the budget. Neatherlin noted we can use a portion of the penalties, but we shouldn't rely on them.

Cooper noted he has been on the board for 14 years and he has seen these similar forecasts that continue to look bleak, however we have yet to see them come to fruition. Cooper noted the expansions we have made to the agency were much needed, however there are areas where we can be more efficient. Cooper asked if we need to have assistance brought in to assist with determining the assessments of fees. Johnston stated we could look into this idea and determine the best course of action. Cooper noted he would be willing to set aside a portion of the penalties as a strategic set aside.

There was some additional discussion; however, there was no action taken by the committee. Brotherton noted we will continue this conversation at a later time.

Johnston noted we may need to meet in March due to lack of 30 days for publishing between May and June.

ADJOURNMENT (1:13:57)

The meeting adjourned at 9:48 a.m.

CERTIFICATION

I hereby certify this is a true and correct copy of the minutes of the meeting of the ORCAA Finance Committee held hybrid, via Zoom, on January 8, 2025, in Olympia, Washington.

ATTEST:

Jeff C. Johnston, Executive Director
Olympic Region Clean Air Agency

Greg Brotherton, Chair
ORCAA Finance Committee

Olympic Region Clean Air Agency FY2026 Budget Overview

Updated April 3, 2025

This summary outlines ORCAA's FY2026 budget. The budget is based on our best estimates, applying the Consumer Price Index (CPI) as directed in Board Resolutions 274 and 275, and identifying key highlights for both revenue and expenses. The following documents are included with the budget package:

- Revenue, Expenditures and Appropriations from Contingency Funds
- Fund Balance
- Description of ORCAA's Programs & Grants
- List of planned building maintenance and leasehold improvements
- Salary Costs Adjustments & Dependent Coverage Contribution history
- Draft FY2026 Salary Step Chart
- ORCAA Organizational Chart
- Draft Fee Schedule
- Land Clearing Burn permit fee increase briefing memo
- Resolutions #274 and #275 that direct staff on fee and assessment increases

FY2026 Overall Highlights:

- Applying the CPI for the year ending December 2024 of 2.3% to fee programs.
- The budget includes 18.2 FTEs. The Financial Specialist position will remain unfilled during FY2026. An assessment of agency needs related to the Financial Specialist position will occur in preparation of the FY2027 budget.
- Programs that are *unfunded* or *underfunded* rely on Federal/State Core grant support. Unfunded programs include outdoor burning, and certain costs associated with the NSR program. Underfunded programs include air monitoring activities, Woodstove Education and Enforcement, and Woodsmoke Reduction programs.
- The budget draws \$446,518 of Unreserved Fund Balance to balance the budget.
- The budget continues to set aside funds for the following Board approved contingency and capital funds:
 - Emergency set aside
 - Office Building
 - Monitoring Equipment
 - Database/Equipment
 - Vacation/Sick Leave
- The budget assumes 80% occupancy in rental income as of March 2025. Efforts are underway to re-rent one vacant office. ORCAA has seven rentals providing rental income of \$4,700/per month on average.

Summary of Revenue:

- Budget revenues are projected at \$3.5 million including contingency fund draws
- Grant revenues represent 17%, Fees and Assessments 59%, Penalties 4%, Rents/Miscellaneous/Interest 4%, and Contingency Draw 16%
- The agency receives grant funding from several governmental sources including the Environmental Protection Agency (EPA), the Washington State Department of Ecology (ECY), and the Energy Facility Site Evaluation Council (EFSEC). These funds support ORCAA's mission to promote air quality and take actions that protect the health and welfare of people and the natural environment in ORCAA's six-county jurisdiction.
- Federal and State Core grant funds assist in implementing comprehensive air quality control programs in seven major categories: enforcement, permitting, monitoring, public education, program development, technical and business assistance, and administration.
- ORCAA actively applies for grant funding to support special projects that further our mission.
- The Cheeka Peak (CPO) NCore air monitoring site is one of two NCore sites in Washington State with on-going funding provided by EPA for operations and maintenance. ORCAA is working with various partners (EPA, Makah, and Clallam PUD) to relocate the site due to the loss of electrical power at Cheeka Peak. The current plan is to relocate site from Cheeka Peak to Bahokus Peak, approximately 5 miles northwest.
- Due to the uncertainty occurring at the federal level, projected Core federal grant revenue has been reduced by 20%.
- Grants are multi-year contracts with terms ranging from 2-4 years and support programs that include:
 - PM2.5: a 4-year grant funded by Ecology to operate three air monitoring sites in Aberdeen, Lacey, and Port Angeles
 - CPO: a 4-year grant funded by EPA to operate a remote monitoring site in Neah Bay on the Makah reservation in Clallam County.
 - Woodstove Education and Enforcement is a 2-year grant funded by Ecology to educate woodstove dealers and the public about woodstove emissions, methods for achieving better efficiency and performance from woodstoves, and to meet the goals of the State and Federal Clean Air Acts.
 - Woodsmoke Reduction is a 2-year grant funded by Ecology that provides funds to remove stoves that are not compliant with 2020 standards – as well as other qualifying solid-fuel combustion devices – and ensures their destruction and allows for replacing devices with a cleaner and more efficient alternative.
 - EFSEC is a 2-year grant to provide technical review of air emissions, permitting and monitoring services and assist EFSEC in carrying out its regulatory oversight of the Grays Harbor Energy Combustion Turbine facility in Satsop, Washington.
- Fee programs include the 2.3% CPI, as per ORCAA Board Resolution #274.
- The Title V Program is mandated by federal law under the Clean Air Act. The program is to be self-sufficient, financed by fees collected from major sources, and not rely on general fund resources to support its operations. ORCAA staff prepare a workload analysis with a projection of costs for compliance monitoring, permit writing, enforcement, and reporting to assure compliance with air quality requirements.

- ORCAA’s Title V program fees will increase by 0.2% in FY2026. The FY2026 budget includes unspent funds from the previous fiscal year and funds that will contribute to a contingency fund.
- Budget includes an increase in Land Clearing Burn Permit fee (from \$131 to \$275 per acre to move the program towards full cost recovery. See attached briefing sheet.
- Other income includes interest income on the agency’s fund balance, penalty and settlement revenue, miscellaneous income (selling 2007 ORCAA vehicle, vendor rebates), and rental income from ORCAA’s 7 tenants.
 - Interest income is projected to be slightly lower than the current fiscal year as ORCAA draws down contingency funds. ORCAA is part of Thurston County Investment Pool (TCIP). The TCIP’s 12-month average interest rate, measured at the end of December 2024, was 2.85%. ORCAA will continue to invest 100% of funds within the TCIP.

Summary of Expenses:

- Budgeted expenses total \$3.5 million, an increase of 4% over the approved budget for FY2025. The FY2026 budget is projecting a decrease in salaries and wages due to not filling the vacant Financial Specialist position. Payroll expenditures, the largest portion of expenses, represent 75%; non-payroll (supplies, postage, hardware/software) 14%; Building-Maintenance and Operations 3%; Direct Operating 8% (Woodsmoke Reduction vendor payments, Ecology Oversight fees, CPO operations & maintenance)
- The increase in non-payroll expenses year-over-year is due to the planned purchase of a new database system, which has an allocated budget of \$150,000. ORCAA expects to award a vendor contract by June 30, 2025, with the first payment to the vendor occurring in FY2026. The FY2026 budget will transfer \$150,000 from the database contingency fund into the general fund to cover the anticipated contract expenditure.
- Salaries include a 2.3% salary increase as a cost-of-living adjustment. The budget also includes an update of ORCAA’s Office Manager job description and compensation to Operations Manager, reflecting additional duties assigned over the past year. In addition to the 2.3% salary adjustment, the Executive Director’s salary includes a 3% increase (to be negotiated with Board prior to budget approval).
- Paid Family and Medical Leave is funded through premiums paid by both employees and employers. ORCAA has elected to pay the employee portion of the premiums at an annual cost of \$15,424.
- Employers and employees typically share in the costs of Labor & Industries (L&I) premiums that cover workers’ compensation claims. ORCAA has elected to pay the employee portion at an annual cost of \$ 4,000.
- The budget includes 18.2 FTEs. We’re delaying the rehiring of the Financial Specialist. The health benefits includes a 6% increase from AWC Employee Benefit Trust which administers the agency health benefits, and no increase for DRS pension contributions as estimated by the State Actuary Committee. The PERS employer portion is 9.11%. The rates are subject to change based on changes to plan provisions, assumptions, and actual events.
- The budget includes up to \$10,000 for a contract with Compensation Connections for HR related support.

- The budget includes \$15,000 for work to update the agency’s strategic plan (last updated in 2018).
- The budget includes \$12,000 for staff development.
- Continuation of an annual contract with The Rhizome Collective for ongoing maintenance and support of the ORCAA website for \$2,500.
- IT Hardware and software purchases include required subscription costs for software, cybersecurity, cloud, onsite storage needs, and planned upgrades for virtual machines.
- Continue contracting with ADP for payroll processing.
- Purchase an electric vehicle to continue electrifying the ORCAA fleet.
- Invest in maintenance and improvements of office building that include HVAC, and flooring replacements. The proposed budget does not include any significant capital expenses for the building beyond estimates to change out 1-2 HVAC systems and flooring upgrades on ORCAA’s side of the building. Please refer to the Office Building Maintenance/LHI for additional details on maintenance projects.
- Again provide OlyMAP with \$8,000 to support their work reducing hazardous burning in unsanctioned homeless camp communities in Olympia.

Contingency & Capital Funds:

Contingency and Capital Funds represent balances set aside for a specific project or purpose. The Board has previously authorized by Resolution funds be set aside for emergencies, office building improvements, replacement of monitoring equipment, a new agency database, and payment of vacation and sick leave to employees. The ending fund balance for FY2026 is projected to be \$3,641,623.

The current level of General Fund Expenses Contingency is set at 20%, which is equivalent to approximately 2-3 months of administrative and operations costs. The Title V program includes a separate restricted contingency to help offset program expenditures. An adequate fund balance is critical, and though we cannot identify all risks, such as revenue volatility (i.e., large, unexpected changes to our federal or state grants), economic downturn, rental income loss, increased pension costs by DRS, increased medical costs, staff turnover and costs of retraining, having an adequate General Fund Contingency helps ensure stability.

The Undesignated Fund Balance is the balance available for appropriation and expenditure as approved by the Board for operations.

ORCAA remains confident in our ability to adapt and maintain a balanced budget while delivering important and vital services in our jurisdiction.

"Operating Contingency Funds" defined

An amount established by board direction.

"Capital Funds" defined

An amount established by board direction to save for specific long-term capital expenditures (bldg, equipment, database).

"Fund Balance" defined

Funds that are held in our bank account with Thurston County Treasurer's Office. ORCAA has one fund with Thurston County and is referred to as the "General Fund".

The total Fund Balance includes all funds on deposit.

4/3/2025

A Resolution must be approved by the Board of Directors to appropriate expenditures in Contingency Funds (except for 1025-Title V and 1040 Security Deposits).

*SAO-06/30/2020 SAO established five new categories for reporting cash and investments

Programs & Grants

Purpose: To identify and describe State/Federal grants, programs and revenue sources administered by ORCAA

Grants	Description
ECY-Core: Federal & State	Performance Partnership Grants (PPE) program- Section 105 of the Clean Air Act are funds that support the Agency's core air quality programs and are distributed through the Washington State Department of Ecology. The funds assist in implementing comprehensive air quality control program in seven major categories: Enforcement, Permitting, Monitoring, Public Education, Program Development, Technical & Business Assistance, and Administration.
ECY-Woodstove Education & Enforcement Program - State	Funding is provided under Chapter 173-433 WAC, Solid Fuel Burning Devices. The Program is designed to protect & enhance air quality within our jurisdiction and to meet the goals of the State and Federal Clean Air Acts. The funds support education including advertising, public service announcements, and costs associated with the implementation of Woodstove Public Education and Enforcement, and monitoring. Funds provided by Washington State Department of Ecology from fees collected on the sale of solid fuel burning devices.
ECY-Wood Smoke Reduction Program - State	Funding provided by the Legislature to improve local air quality by reducing PM2.5 pollution originating from woodstoves and other solid-fuel heating devices. The program provides funds to remove stoves that are not compliant with 2020 standards – as well as other qualifying solid-fuel combustion devices, and ensures their destruction and allows for replacing devices with a cleaner and more efficient alternative. ORCAA administers a Wood Smoke Reduction Program in all six counties in ORCAA's jurisdiction.
ECY-PM 2.5 Monitoring - Indirect Federal	Funding source is Section 103 of Clean Air Act. Funds are used to operate nephelometers at Mt. View Elementary - Lacey, Harbor High School - Aberdeen, Stevens School - Port Angeles. CFDA #: 66.034
EPA-Cheeka Peak Observatory (CPO) - Direct Federal	Funding allows ORCAA to provide real-time web-based access to air quality data for the western tip of Washington State on the Makah reservation. ORCAA performs necessary data collection, data validation, data acquisition, instrument quality control and maintenance functions, planning, equipment purchasing, air quality forecasting, and administration. Funding source is Section 103 funding that includes a contract directly with EPA since 2004.
Energy Facility Site Evaluation Council (EFSEC) - State	The funding is used to provide technical review of air emissions, permitting and monitoring services, and assist EFSEC in carrying out its regulatory oversight of Grays Harbor Energy Combustion Turbine facility. This is a natural gas-fired electric generation facility located in Grays Harbor County. ORCAA has been providing engineering and compliance services since 2007.
Fee Programs	
Air Operating Permit (Title V) - Federally Approved State Program	ORCAA has been delegated authority by ecology to administer the federally approved state Air Operating Permit (AOP) program in its jurisdiction. ORCAA issues AOPs to sources required to obtain an AOP under Chapter 173-401 WAC (including major sources*). AOPs incorporate and clarify all air requirements that apply to equipment and establish necessary monitoring, record keeping and reporting conditions. AOPs are required to be renewed every five years, during which time they are subject to a public comment period and review by EPA. There are currently 11 sources subject to the AOP program in ORCAA's jurisdiction. (Fee authority - RCW 70A.15.2270)
	*Major Sources are those with a potential to emit more than 100 tons per year of any criteria pollutant, greater than 10 tons per year of hazardous air pollutant (HAP) , or greater than 25 tons per year of any combination of HAPs.
NSR Program (Minor)	Pursuant to RCW 70A.15.2210 (formerly 70.94.152), New Source Review (NSR) refers to the regulatory process designed to facilitate & evaluate compliance with air permitting requirements prior to construction, installation, modification or establishment of any new air pollution source. The goal is to ensure new sources are established in compliance with applicable air regulations and standards. Lumber mills, boilers, rock crushers, coffee roasters, crematories, and hot mix asphalt plants are examples of facilities that are required to comply with NSR. In most cases, NSR is initiated through submittal of a Notice of Construction (NOC) application.
Notice of Intent	Pursuant to RCW 70A.15, ORCAA has established a Notice of Intent (NOI) program for notification prior to the establishment of certain sources. A NOI is required prior to establishment of nonroad engines. In addition, the following sources may file a NOI in lieu of filing a NOC: 1) relocation of temporary portable stationary sources who already have complied with NSR requirements, 2) new or modified stationary sources whose emissions are below de-minimis thresholds, and 3) gasoline dispensing facilities that meet certain criteria. ORCAA may establish enforceable conditions of operation through a Regulatory Order as needed to assure compliance with applicable air pollution control requirements.
Asbestos	Fees are collected for asbestos removal and building demolitions to control the emission of toxic air pollutants and to provide uniform enforcement of air pollution control in ORCAA's jurisdiction. Asbestos is a federally regulated Hazardous Air Pollutant under 40 CFR Part 61 Subpart M.
Outdoor Burning & Land Clearing	Pursuant to WAC 173-425-070: Outdoor burning in any area within ORCAA's jurisdiction requires a permit, with the exception of certain city limits, municipal boundaries and Urban Growth Areas where outdoor burning is prohibited. Permits are issued for land clearing burning and agricultural burning as allowed for in state regulations.

Registration	Pursuant to RCW 70A.15.2200 (formerly 70.94.151), air contaminant sources are required to register with ORCAA. ORCAA maintains a current and accurate record of stationary sources used to evaluate the effectiveness of air pollution control strategies and to verify stationary source compliance with applicable air pollution requirements. Fees are collected to cover the cost of administering the registration program including but not limited to inspections, report reviews, and emission inventory. (Fee authority - RCW 70A.15.2200)
Assessments	RCW 70A.15.1600 (formerly 70.94.093) provides for additional income to be obtained to fund local air agencies, referred to as "supplemental income" in the RCW. Each municipality within ORCAA's jurisdiction is required to pay a portion of the supplemental income. This can be based on assessed valuation of property within ORCAA's boundary, the population, or an equal combination of the two methods. ORCAA utilizes the population method and charges a "per capita" fee per citizen.
Civil Penalties	Civil penalties are a result of enforcement actions. Any person or business who violates any of the provisions of chapter RCW 70A.15 (formerly 70.94) or any of the rules or regulations in force, may incur a penalty in an amount not to exceed \$14,915 per day for each violation, as set in ORCAA's regulations.
Previously administered programs:	
Woody Bio-Mass	Funding is Federal Performance Partnership Grants - Section 105. Funds are made available from EPA through DOE to ORCAA. A contractor was hired to do a Life Cycle Analysis of biomass, including the emissions from greenhouse gas air toxics and fine particulates from forest management and land clearing operations in the Pacific Northwest and Alaska.
Diesel School Bus Retrofit Program - State	The funding was provided through legislation in 2003 to reduce emissions by: installing DOC's, CCV's, replacement of gasoline vehicles with zero-emissions electric vehicles, replacement of gasoline powered lawn mowers with zero-emissions electric models, DOC retrofits for diesel machines and diesel vehicles, bio-diesel conversions and retrofitting diesel locomotives.
Woodstove Change-Out Program - State	The Legislature provided funds for Wood Stove Replacements in the Supplemental Ecology Budget. The funding was earmarked to provide subsidies to citizens who voluntarily replace heavily-polluting, uncertified wood stoves and fireplace inserts with cleaner-burning heating devices in wood smoke problem areas. It included the replacement of wood stoves in low-income residences. The program has been revived and renamed the Woodsmoke Reduction Program (see above). (ORCAA used surplus/unreserved funds (Fines) to administer the program when Ecology did not have funding in FY2009 and used School Bus funds in FY2010.)

Olympic Region Clean Air Agency
Office Building Maintenance / Leasehold Improvements
Fiscal Year 2026 includes the following leasehold improvements and maintenance:

		<u>Estimates</u>
<u>Leasehold:</u>		
LHI	Upgrade oldest HVAC units in Ste #101 and #102 (Gas \$15k, Electric w/heat pump \$20k)	\$ 35,000
		\$ 35,000
<u>Maintenance:</u>		
M	Sunrise Pest Control, annual contract	\$ 1,400
M	Air Handlers, annual contract HVAC, maintenance parts	10,000
M	complete wall between Compl Mgr & Off Mgr	4,200
M	electrical, plumbing, small replacements, miscellaneous maintenance	5,000
M	clean and paint exterior hand rails (east side stairwell, west side Ste B entrance)	500
M	roof maintenance (May & September) (Cabbros Cleaning)	1,200
M	window cleaning (Cabbros Cleaning)	600
M	landscape maintenance (tools-pressure washer, flowers, ground cover, bark, supplies)	1,500
		\$ 24,400
		\$ 59,400

Future Projects (short/long term):

<u>Exterior</u>		<u>In Year:</u>	<u>Estimated Costs:</u>
LHI	replace roof (existing roof installed July 2003-The Roof Doctor, Inc. Olympia)	2027	\$ 60,000
LHI	Solar on bldg (costs yet to be determined)	2027	\$ 100,000
LHI	new lab exit door (with push-bar)	TBD	\$ 800
M	gravel for parking lot	2027	\$ 1,200
M	paint exterior (3 walls, south wall completed in Sept 2019)	2026	\$ 15,000
LHI	new entry door to warehouse (with push-bar)	TBD	\$ 800
M	replace or realign door on 2nd floor (outside FSM's office), entry to second floor kitchen	TBD	\$ 800
M	repair or replacement of 3-4 exit doors - Lab door (ORCAA side), Tenant exit door (East), 2nd Floor Exit (ORCAA side), Warehouse door (est. \$1250/ea) ADA Compliant	2027	\$ 5,000
M	weather stripping doors, windows, and vapor barrier in crawl (check for moisture)	2026	\$ 1,500
M	replace windows, seals have been comprised, specifically 5 (wellness, #200, #101, monitoring, lg conference room)	TBD	\$ 4,500
M	replace remaining windows as needed in bldg	TBD	\$ 9,000
M	reseal parking lots-asphalt (August 2026)	2026	\$ 6,000
M	restripe parking lot (west side of property)	2026	\$ 600
LHI	new street sign on Limited Lane NW	2026	\$ 3,000
M	Ste A entry; concrete work to prevent/eliminate water puddling at entrance	TBD	\$ 1,000
M	Remove "ORCAA" lettering from west wall over Ste B entrance and relocate	TBD	\$ 1,200
LHI	two car fenced enclosure for EV chargers (apprx 120 lin ft of fence @ \$30/lin ft + \$400 in accessories)	TBD	\$ 4,000
		Total Exterior	\$ 214,400

<u>Interior</u>			
LHI	replace carpet in Ste A "great" room, 2nd floor CM, FSM offices (GR \$21k, others estimated at \$4k each)	2027	\$ 33,000
LHI	replace floor: OffMgr, CompSup, ED, Sm Conf Room (OM \$5k, others estimated at \$4k each)	2027	\$ 27,000
LHI	replace carpet w/carpet tiles in Large Conference Room	2026	\$ 12,000
LHI	replace carpet: Ste B- suites #101, 104, 105 (estimated at \$2k each)	2026	\$ 6,000
LHI	replace floor in Ste B Restrooms x2	2028	\$ 2,000
LHI	replace kitchen floor in Ste B	2028	\$ 1,100
LHI	replace floor in Ste A Restrooms x 4 (2 on 1st floor, 2 on 2nd floor)	2028	\$ 4,000
M	interior painting of building (including restrooms, kitchens, hallways, etc. as needed)	TBD	\$ 8,000
M	insulation of walls, attic, crawl spaces to reduce noise and improve weatherization efficiencies	TBD	\$ 10,000
M	install Air Pear Unit in Great Room, optional consideration-ceiling fan (listed under HVAC too)	2026	\$ 2,000
LHI	replace aging Fire Panel for building	2025-2026	\$ 12,000
LHI	upgrade security system (currently have two panels, and combined fire/security panel)	2025-2026	\$ 12,000
M	server room fan for temperature control	TBD	\$ 500
M	change-out Large Conference Room lights to LED	TBD	\$ 750
LHI	replace upstairs men's toilet, including sub floor repair	TBD	\$ 1,500
LHI	ADA improvements (south entrance door, west tenant entry door, etc.)	TBD	\$ 7,000
		Total Interior	\$ 138,850

<u>Electrical</u>			
LHI	EV Charging Stations, install dedicated 220 circuit(s)	TBD	\$ 11,000

<u>HVAC</u>			
Replace HVAC systems as follows:			
LHI	combine #3-Ste B Lobby (2004 gas) and #4 services #101 & #102 (1987 model); change duct work to size for one unit	2025	\$ 35,000
LHI	replace Unit #5 located in conference room (1987 unit)	2026	\$ 23,000
LHI	#6 Lennox gas unit services 2nd floor and partial 1st floor Ste A (installed in June 2015)	2035	\$ -
LHI	#2 Carrier gas unit services great room (2012 unit)	2032	\$ -
LHI	#1 gas unit services Suite #103 (2002 unit)	2027	\$ -
LHI	#7 gas furnace services Warehouse (March 2019)	2039	\$ -
M	install secondary thermostat sensor(s) for Offices #200 and #201 for improved temperature control	TBD	\$ 600
M	install ceiling fan or air turbine fan (air pear fan) in great room (located on Ste A side)	2026	\$ 2,000

Add'l processing costs above allowed hours – per hour	\$ <u>101.80104.14</u>	
Actual legal notice fees	Actual cost	
Actual ORCAA legal fees	Actual cost	

¹Complexity – Level 1, Level 2, Level 3 and Level 4

The following includes equipment that would be considered in each permit complexity class if installed by themselves. If the application includes more than one piece of equipment/process or if your equipment/process is not listed, please contact ORCAA Engineering Department for a complexity

determination for your project.

Level 1

Abrasive Blasting
Coffee Roaster
Dry Cleaner
Emergency Engine ≤ 2000 bhp
Gasoline Dispensing Facilities
Rock Crushing Plant
Spray Painting – Autobody
Storage Tanks <10,000-gallon capacity -
excluding gasoline dispensing facilities

Level 2

Combustion Equipment <30 MMBtu/hr
Compost <50 ton/day
Cremator
Emergency Engine ≥ 2000 bhp
Non-Emergency Engine
Process Equipment
Soil Remediation
Surface Coating (excluding autobody)
Welding

Level 3

Combustion Equipment 30-100 MMBtu/hr
Compost 50-200 tons/day

Level 4

Asphalt Plant
Combustion Equipment >100 MMBtu/hr

²Equipment fees for other equipment not classified above is determined based on the size and the type of the unit. Please contact ORCAA Engineering Department for assistance.

~~³Per Rule 1.4, a “Modification” means any physical change in, or change in method of operation of, a stationary source that increases the amount of any air contaminant emitted by such stationary source or that result in the emissions of any air contaminant not previously emitted.~~

⁴~~Changes~~-³Changes in Conditions that will result in an emissions increase are reviewed as a “modification”

Notice of Intent (NOI) Fee Schedule

Land Clearing Burn Permit Fees

Friday, April 4, 2025

To: ORCAA Board of Directors

From: Mike Shults (Compliance Manager) & Jeff Johnston (Executive Director)

Regarding: Request to increase Land Clearing Burn (LCB) permit fee significantly to bring program closer to cost recovery

Executive Summary

ORCAA issues approximately 225 LCB permits per fiscal year with a fee of \$131 per acre (more than 90 percent of permits issued are for 1 acre). Analyzing data over the past 3 years shows that it costs the agency approximately \$275 per permit to execute the program. Staff recommends increasing the cost of a LCB permit to \$275 per acre, in accordance with ORCAA Rule 3.4 (b) stating that fees must cover the cost of the program.

Requested Board Action

Approve a LCB permit fee increase from \$131 to \$275 per acre as part of approving the FY2026 budget.

Budget Impact

Increasing the fee to \$275 per acre from \$134 (the FY2025 fee increased by 2.3% per Resolution 274) – assuming 225 LCB permits during the year – will increase program revenue from \$30,105 to \$61,875.

Background

ORCAA Regulations require LCB permits for all areas in ORCAAs jurisdiction. ORCAA Rule 6.2.2 defines land clearing burning as outdoor burning of trees, stumps, shrubs or other natural vegetation from land clearing projects. ORCAA issues approximately 225 LCB permits each year, and the trend is decreasing with fewer permits issued each year.

Thurston County holds the majority of LCB permits (49%) followed by Clallam (36%), Grays Harbor (12%), Jefferson (5%) and Pacific (1%) counties. Per agreement between ORCAA and Mason County, the Mason County Fire Marshal issues all LCB permits in that county. ORCAA has similar agreements with 12 individual fire departments and districts in our other five counties. The costs charged by fire districts range from \$75 to \$175 per acre. These permits are administered by much smaller entities, so less time for them for complaints and inspections. ORCAA still handles some complaints and all enforcement in these districts, therefore, ORCAA's costs are higher.

ORCAA has not increased the LCB permit fee more than the annual CPI increase for more than 10 years. Over that time, the cost of processing, inspecting, and responding to complaints for the land clearing burns have increased faster than our permit fee. ORCAA is looking at efficiencies in the land clearing burn program but must also raise the fee more than the CPI for the program to approach cost recovery. According to ORCAA Rule 3.4 (Outdoor Burning Permit Fees) (b), the fees collected must cover the direct and indirect costs of the LCB permit program. The workload analysis showing

Briefing Memo – LCB Permit Fees – continued –

a cost of \$275 per acre for the LCB permit program includes payroll direct, payroll indirect (i.e., employee benefits) and nonpayroll (i.e., office supplies, gasoline, etc.) costs of the program.

As the name of the permit indicates, LCBs are for land clearing done as part of developing a parcel of land and are much different from residential burns. LCBs are typically much larger (up to 20 feet in diameter) compared to residential burns (between 4-10 feet in diameter). Residential burning is allowed for limbs or trimmings of onsite vegetation in an already developed lot. Relative to the costs associated with land development, staff does not see this large fee increase (\$141 per acre) as overly burdensome on permit applicants.

LCBs are a large source of emissions to our airsheds and increasing fees could provide an incentive to landowners and developers to consider other methods of disposal of the woody debris (chipping or hauling off-site). The fee increase is also consistent with ORCAA's approach to charge higher fees for higher emissions.

The requested increase in the LCB permit fee is part of ORCAA's effort to set fees that cover the cost of operating our fee programs. In the next year, staff will look closely at other fee programs (NSR, registration, and asbestos and demolition) and will make recommendations to the Board about additional fee adjustments.

OLYMPIC REGION CLEAN AIR AGENCY

RESOLUTION NO: 2018-274

Western Consumer Price Index Adjustment for ORCAA's Fee Schedules And Workload Analysis Process

WHEREAS, the Olympic Region Clean Air Agency (ORCAA) Board of Directors previously approved Resolution #268 authorizing ORCAA to adjust fee schedules using the Consumer Price Index (CPI) for the Seattle, Tacoma, Bremerton Washington area, and

WHEREAS, the fee schedules include the following programs: registration, asbestos and demolition notifications, open burning permits, notice of construction, notice of intent, and variances, and

WHEREAS, ORCAA conducts periodic workload analysis on programs to determine sufficient coverage of program costs, and

WHEREAS, the workload analysis may determine that CPI is insufficient to fully recover workload costs, and

WHEREAS, in January 2018, the Bureau of Labor Statistics (BLS) redefined CPI indices affecting Washington local government entities that use the CPI, and

WHEREAS, the BLS created the Western Consumer Price Index that includes the West region and Pacific division, and that the Pacific division includes Washington, and

WHEREAS, the Board of Directors have chosen to follow the Western Consumer Price Index which is closest in proximity to ORCAA's region, and

WHEREAS, the Board of Directors will annually adjust the fee schedules using the Western Consumer Price Index (CPI-U) for the prior calendar year, unless, after conducting periodic workload analysis of the programs the Western Consumer Price Index does not sufficiently cover program costs, and ORCAA shall publish a notice of the adjusted fee schedules as part of the annual budget to allow for public comment.

NOW, THEREFORE, BE IT RESOLVED,

1. The fees set forth in the ORCAA fee schedules are revised as set forth in Attachment 1.
2. The fees set forth in Attachment 1 shall be adjusted annually to reflect the rate of inflation as determined by the prior year's Western Consumer Price Index (CPI-U) as published in the Bureau of Labor Statistics.
3. Annual fee adjustments shall not exceed 3 percent of the previous year's fee.
4. ORCAA shall adopt the adjusted fee schedules as part of the annual budget process.
5. If periodic workload analyses are conducted and fees are higher than the allowed

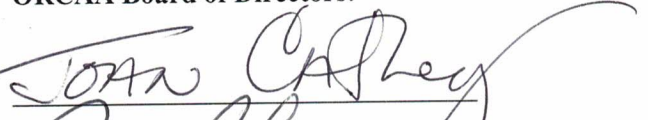

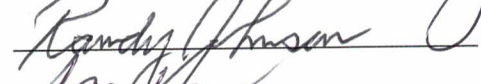

rate of inflation in the Western Consumer Price Index (CPI-U), the Board may adopt, under separate resolution, the new fee schedules that resulted from the workload analysis.

6. Unless otherwise ordered by the Board, the fee schedules adjusted for inflation as determined by the prior year's Western Consumer Price Index (CPI-U) as published in the Bureau of Labor Statistics shall become effective on July 1st.

Francea L. McNair
Executive Director

ORCAA Board of Directors:

Approved and signed on
this 13 day of June, 2018

OLYMPIC REGION CLEAN AIR AGENCY

RESOLUTION NO: 2018-275

Western Consumer Price Index Adjustment for Per Capita Supplemental Income Assessment

WHEREAS, the Olympic Region Clean Air Agency (ORCAA) Board of Directors previously approved Resolution #267 authorizing ORCAA to adjust Per Capita Assessments using the Consumer Price Index (CPI) for the Seattle, Tacoma, Bremerton Washington area, and

WHEREAS, in January 2018, the Bureau of Labor Statistics (BLS) redefined CPI indices affecting Washington local government entities that use the CPI, and

WHEREAS, the BLS created the Western Consumer Price Index that includes the West region and Pacific division, and that the Pacific division includes Washington, and

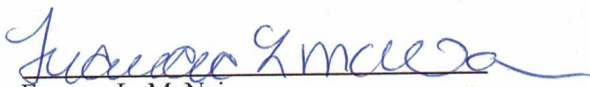

WHEREAS, the Board of Directors have chosen to follow the Western Consumer Price Index which is closest in proximity to ORCAA's region, and

WHEREAS, the Board of Directors will annually adjust the per capita assessment using the Western Consumer Price Index (CPI-U) for the prior calendar year.

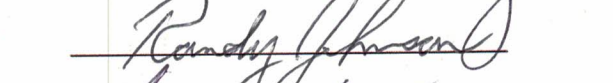

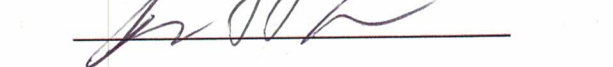

NOW, THEREFORE, BE IT RESOLVED,

The Board of Directors hereby amends Resolution #267 to annually adjust the rate for per capita assessment as part of the annual budget adoption by using the annual rate of inflation as determined by the prior year's Western Consumer Price Index (CPI-U) as published in the Bureau of Labor Statistics.
