2940 LIMITED LANE NW
OLYMPIA WA 98502

Regular Meeting

December 9, 2020
10:00 am

Be courteous – Please silence all cell phones

1. **CALL TO ORDER**
2. **APPROVAL OF AGENDA** (*action item*)
(Ask for any corrections, additions/omissions)
3. **CHAIR REPORT**
4. **PUBLIC COMMENT**
5. **CONSENT AGENDA** (*action item*)
 1. Minutes of Regular Meeting, October 14, 2020
 2. Minutes of Personnel Meeting April 8, 2020
 3. Expenditures and Disbursements – October 9, 2020 – December 3, 2020
6. **NEW BUSINESS**
 1. Community Air Toxics program summary
7. **DIRECTOR'S REPORT**
 1. Compliance Program Update (*Robert Moody, Compliance Manager*)
 2. Engineering Program Update (*Mark Goodin, Engineering Manager*)
 3. Air Quality Program Update (*Odelle Hadley, Senior Air Monitoring Technician*)
 4. Education and Outreach Update (*Dan Nelson, Public Information Officer*)
 5. Finance/Administrative Update (*Lynn Harding, Administrative Services Manager*)
 6. Executive Director's Report (*Fran McNair, Executive Director*)
8. **GOOD OF THE ORDER**
9. **EXECUTIVE SESSION**
To discuss any matter suitable for Executive Session under RCW 42.30.110
10. **ADJOURN**

OLYMPIC REGION CLEAN AIR AGENCY
2940 Limited Lane NW
Olympia, Washington 98502

BOARD OF DIRECTORS MEETING – via Zoom

October 14, 2020

Members present	Jim Cooper, City of Olympia (Chair) Cynthia Pratt, City of Lacey (Vice Chair) Greg Brotherton, Jefferson County Wes Cormier, Grays Harbor County Joan Cathey, City of Tumwater
Members absent	Randy Neatherlin, Mason County Tye Menser, Thurston County Mary Ellen Winborn, Clallam County (10:06 am) Mike Runyon, Pacific County
Legal Counsel	Jeff Myers and Michael Throgmorton of Law, Lyman, Daniel, Kamerrer and Bogdanovich
Staff Present	Fran McNair, Executive Director; Robert Moody, Compliance Manager; Mark Goodin, Engineering Manager; Odelle Hadley, Air Monitoring Supervisor; Dan Nelson, Public Information Officer; Lynn Harding, Administrative Services; and Debbie Moody, Office Manager/Recorder

Cooper called the meeting to order at 10:00 a.m.

Cooper asked if everyone was ok with the Agenda. There were no comments, the Agenda was accepted on consensus.

CHAIR REPORT

Cooper asked Pratt to give a brief update on the Finance Committee meeting. Pratt noted the finance report was very positive, stating we have received 30% in revenue and 27% has been spent in the first quarter. Pratt stated we did have a discussion on the Title V program balance, however overall, it was a very positive meeting. Harding corrected Pratt, noting the expenditures is currently at 24%.

PUBLIC COMMENT

There were no public comments.

CONSENT AGENDA

Cooper asked approval of the Consent Agenda. Cormier moved approval of the Consent Agenda. The motion was seconded and carried unanimously.

PUBLIC HEARING

Rule 1.11 – Federal Regulation Reference Date

R. Moody explained this is the exercise we go through annually to change the date of the Federal Rules we have adopted into our regulation. We have not received any public comment. Staff recommendation is to approve the date change. Cooper opened the hearing at 10:05 am and asked for any comments. There were none. The hearing was closed at 10:05 am.

Pratt moved approval of Rule 1.11-Federal Regulation Reference Date rule change. The motion was seconded and carried unanimously.

NEW BUSINESS

Resolution 279 Budget Amendment 001: Woodsmoke Reduction Grant

Harding noted we are seeking approval to add \$35,000 to the Woodstove Reduction program. The funds will assist in some of the changes that have taken place in the program. A new task was added to the program to assist staff in making it a bit easier to expend the funds in all three counties. In brief, we are combining each of the three funds (one for each of the three counties participating) into one fund and adding an additional \$35,000.

Nelson added we do require pre-approval of jobs prior to spending so we are able to set the funds aside. Currently, Nelson continued, out of the \$295,000-which includes the additional \$35,000-we have allocated \$200,700 to date. Adding in administrative and marketing costs we would need to include about \$59,000. We anticipate spending the entire amount and hope to request additional funds after the first of the year.

Brotherton asked if we moved from the word Bounty to Recycling. Nelson stated we have and it was at the request of several Native American Tribes in Eastern Washington that objected to the 'bounty' – it is a statewide change for all programs.

Harding stated an updated budget is attached to the resolution. Brotherton moved approval of Resolution 279 Budget Amendment 001. The motion was seconded. Cooper stated he was abstaining from the vote as he is in the process of utilizing the program. The motion carried with a majority of those present. (4 yes; 1 abstain)

DIRECTORS REPORT

Compliance Program Update

R. Moody stated we did receive a lot of complaints during the smokey timeframe. Most areas continued to allow recreational fires. In an asbestos case, ORCAA vs. Campbell, we prevailed, and they have until November 6 to appeal to Superior Court.

Engineering Program Update

Goodin stated we may be thinking there would be a lull in permitting, but the opposite is true. It appears to be a statewide thing, Goodin noted. Speaking to his counterparts at other agencies, there has been an uptick in permitting actions. Goodin explained it appears the permitting is related mostly to wood products and waste management (compost, etc.). Going over some of the permitting activities, Goodin stated Ascensus has applied to apply a limit on their potential to emit. Doing this, Goodin noted, will get them out of the Title V program. BHP Billiton Canada was a proposed potash facility that has since been abandoned. DES Capitol Campus, like Ascensus in that they have established limits on their emissions in order to stay out of Title V program as well. Grays Harbor Energy, which has been on this list for quite some time, has been completed. We have a contract with EFSEC to write permits and conduct compliance activities for this facility. EFSEC has finally issued the permit.

Goodin continued with Sierra Pacific Industries (SPI). They produce kiln dried lumber and have applied to replace their kilns with 8 new ones. They are also requesting an increase in the production limits which will result in an increase in emissions. Due to the nature of their permitting it will trigger Prevention of Significant Deterioration (PSD) permit from Ecology. We are currently

working with Ecology to assist SPI in getting through the PSD action. Silver Springs has asked to modify their compost facility. This request will increase their capacity and emissions. We have drafted a preliminary determination and sent it to them for review. We have requested additional controls on the first stages of composting and expect to have several meetings with them and their consultant.

Cathey questioned why we would allow them to increase their emissions when they are already an odor problem. Cathey felt the issue of wanting more control at the front end seems to be an old issue, not a new one. Goodin explained it is new. In this case they trigger a permit. Because of this, we can evaluate emissions and in doing so, we have the authority to require more controls to meet the standards in order to allow the increase in emissions. If they implement the controls we are requesting, their emissions should be substantially reduced.

Air Quality Program Update

Hadley explained while the air quality in September was not great, it did allow for beautiful photography. She noted the cover photo was shared by Lauren Whybrew's sister and was taken in the San Juan Islands. Hadley noted the summary for September shows quite a lot more numbers than we typically see, and, she had to add another category that we have not used. Hazardous was added and used in every county. It was pointed out the averages for the month, in each county, were well over the unhealthy levels every day. Hadley added, if we weren't able to file for an exceptional event with EPA this would be indicative that we are over the max for the year.

Hadley stated she has gotten many people asking if this is the worst air quality we have ever had. Hadley had a chart showing 2018 we spent more time in Unhealthy conditions, however 2020 we hit hazardous. Over 20% of the time, between June and September 2020, was spent in very unhealthy or worse. Hadley shared charts to show the same information in different ways. The answer to the question is yes, this is the worst smoke event we have had in this area.

September is officially the last month we track ozone as it is a summer pollutant. Hadley noted as it shows, we never reached the standard, however there was a spike around September 7 through 11. That spike may be attributed to the first smoke event we had. Hadley explained wildfire smoke can amplify ozone concentrations, but it is a complicated relationship because it can also suppress ozone buildup.

We were able to deal without sites during these episodes. We fixed the Shelton site after it began having communication issues during the smoke event. The Raymond monitor was very dirty after the smoke events and we had some trouble getting it calibrated so we did lose some data. Hadley noted she continues to work on the Community Toxics project which is due next month. Hadley plans on giving a summary of that project at a later meeting. Hadley stated she assisted Ecology on answering questions regarding the smoke events from the public. We received excellent feedback on the [blog](#). Hadley also noted she attended an EPA Purple Air webinar where they explained the corrections, quality control of the data and how they are using the data. She stated there is a correction factor on the site that people should use (EPA correction factor).

Hadley wanted to share she had talked to the National Weather Service regarding their ability to assist in tracking future smoke events and assisting in alerting people. There was some discussion regarding WAQA and AQI and their differences and confusion it does cause some people. Hadley stated the National Weather Service does use the AQI.

Education and Outreach

Nelson added the AQI/WAQA issue has been a discussion of the Northwest Air Quality Communicators' group for many years. The basic message the communicators' group pushes is regardless of which measurement you look at, if you leave the green zone, take the proper

precautions. McNair added the other air agencies aren't consistent with what they use either. Some use WAQA and some use the AQI. She noted the air directors will be discussing this at the January meeting.

Nelson continued, noting he added several links to the Board packet. We have several links to our online mapping, some of which are available to the public while others are strictly for inhouse use only. Our online burn permits are tracked for compliance and you can see we currently have 22 ongoing land clearing burns in our jurisdiction. Our Thurston County burn permit program is extremely successful, so successful that 14 days into the burn season and we have about 1000 burn permits open in Thurston County. Nelson explained a few years ago, 5% of those permits would have been invalid due to being in a no burn area. Last year that number dropped to 1.5% and thus far, we have had 8 invalid permits for the nearly 1000 we received. Each year the education has helped remind people where they can't burn. There has been some discussion, Nelson stated, to make the online permitting jurisdiction-wide through our website. We have a few fire districts that still offer paper permits, so we will be discussing this with them.

Our email alert program, Nelson continued, is growing. In the last few days, we had over 500 new subscribers. We currently have approximately 10,000 subscribers, up from 4,800 last year at this time. Of those subscribers, 30% of them share or push those emails out to their own subscribers.

We also have a gasoline facility map that has been utilized by quite a few people. The information is there for not just the public, but for the contractors and stations to assist them in meeting the testing and permitting requirements.

As discussed previously, we have added \$35,000 to our woodstove change out program and we are looking good to fully expend our funds by the end of the calendar year. Nelson stated he hopes to request additional funds if there are any available after the first of the year. Nelson showed a map of the change outs, noting there is many more in the Olympia/Lacey area as that is where we started our efforts.

Cooper asked Nelson to send him the data he cited regarding outdoor burning in Thurston County. He was curious if there is another data point from the compliance that matches, or doesn't, complaints to burning in the cities and urban growth area. If that is something we can pull together it would be great. Cooper reminded everyone that we had done outreach a couple of years ago to talk about charging a fee for outdoor burn permits and the feedback was, because of the lack of compliance in the cities and UGAs, we had more work to do. Cooper noted this appears to be showing a huge success. He was interested in seeing what the outreach plan and timeline would be to get to a full regional online permit and, an outreach plan to get to a decision around a fee in Thurston County in time for our budget season (this upcoming budget).

Finance/Administrative Update

Harding thanked Pratt for covering the first quarter finance report, noting it was a very positive report. She reiterated we have received 30% of our budgeted revenue. Our grant work and reimbursements reflecting that will be seen in the 2nd quarter of our fiscal year. On the expenditure side, we have expended 24% of our funds. A large portion of that is attributed to our insurance payment.

Executive Director's Report

McNair noted majority of staff are still working remotely and we anticipate engineers will be working remotely (other than Mark Goodin), until sometime next year. McNair stated her focus is, once we have a vaccine, we can start bringing staff back into the office. McNair noted she has been encouraging staff to get their flu shots and is hopeful they are getting them. Compliance staff continues to do the inspections they can and also responding to complaints.

As mentioned earlier, the AQI/WAQA discussion was a major portion of the Air Directors' Meeting in September. We, the air directors, will be pushing Ecology to take a stronger role on this issue.

McNair noted, during the heavy smoke days, Mason, Jefferson and Pacific counties put into place 'no recreational fires' when the smoke was very bad. It was unfortunate the other 3 counties continued to allow recreational fires. McNair stated perhaps each of the Board members could consider, or discuss with staff, not allowing recreational fires when we have these extreme events. Cooper suggested staff send an email to the counties citing some of Hadley's data and mention the 3 counties that did restrict recreational burning. McNair stated she could do that if the rest of the Board was ok with it. Brotherton noted it wasn't the commissioners who made the decision, it was the Fire District, so including them in the email would be helpful.

McNair reminded everyone there is no meeting in November, so our next meeting is December. Cooper noted December will be the last meeting for Cormier and asked if we knew of any other changes. McNair stated there could be changes in January when the commission/city councils chooses the Boards you will be part of. We are sorry to see Cormier leave, McNair stated.

Cooper stated January might be a good time to remind our jurisdictions they can have a staff alternate to attend in the place of the appointed Board member.

GOOD OF THE ORDER

Nelson stated he forgot to mention he has been working on asbestos and demolition education to the counties and cities and wanted to call out Mark Siegler of Grays Harbor County. He was specifically complimentary of ORCAA, and wanted to acknowledge Mike Shults for the outstanding work he has done in their communities.

ADJOURNMENT

The meeting adjourned at 11:22 a.m.

CERTIFICATION

I hereby certify this is a true and correct copy of the minutes of the meeting of the ORCAA Board of Directors held on October 14, 2020, in Olympia, Washington.

PERSONNEL COMMITTEE MEETING – via zoom

April 8, 2020

Members present: Jim Cooper, City of Olympia (Chair)
Mary Ellen Winborn, Clallam County
Joan Cathey, City of Tumwater
Greg Brotherton, Jefferson County

Members absent:

Staff Present: Fran McNair, Executive Director and Debbie Moody, Office
Manager/Recorder

Cooper called the meeting to order at 8:33 a.m. Meeting done through Zoom – introductions were done for the record.

APPROVAL OF AGENDA

Cooper asked for approval of the Agenda. Brotherton moved approval, the motion was seconded and carried unanimously.

APPROVAL OF MINUTES

Brotherton moved approval of the Minutes of March 11. The motion was seconded and carried unanimously.

EXECUTIVE SESSION

Cooper had requested a session be placed on the agenda, if needed. For the committee's benefit, Cooper noted because we are in a virtual meeting and it is being recorded, it is nearly impossible to have an executive session. Cooper noted if everyone was ok with no Executive Session we will move on. The committee agreed we could move forward.

EXECUTIVE DIRECTOR EVALUATION and SALARY

Evaluation

Cooper explained we received salary information from McNair and Moody had sent on evaluation summary of those she had received. Cooper noted 3 members did not send in evaluations. He noted he also received one contact from staff which was 2-3 paragraphs of glowing review of McNair.

Cooper recommended we reflect on what we saw on the document.

Cathey stated she felt McNair deserved 5s across the board. She noted McNair has broad experience and it adds to our agency. She has good contacts and is smart in her use of them, making a good impression of how ORCAA is seen in the broader community.

Brotherton also included an evaluation form and overall felt McNair makes professionalism and responsive look easy. He did note his evaluation form did include things he would like to see more of but admitted some of it is due to his lack of experience.

Winborn stated she has said many times ORCAA is a highlight for her. The way McNair runs the meetings is well done and they are positive, informative and objective. Winborn noted she has been on the Board for 5 years and feels that is a good amount of time to see different aspects, and thus far McNair has handled things beautifully.

Cooper added there is a fine balance between citizens and being graceful and professional all at the same time.

Winborn added, since she has been on the Board, we have had quite a few public hearings and she wanted to note how impressed she was by the way McNair handled those. We may not have had a lot of public; it was obvious she was capable of dealing with a room full of people.

Cooper thanked staff for the good data set, it is validating.

Salary

Cooper noted his recommendation, based on where we are in the budget process, while we'd love to give our director a large raise with the position we are in financially during this time, we keep the director's salary tied to what the rest of the staff will or will not get. Cooper did note the finance committee is looking at either a 0% or 1.5% increase in fees and pay. We did look at a 3% increase previously, however due to Covid-19 situation we felt it was more responsible to go lower and see how we come out this year.

Winborn asked if we do evaluations each year. Cooper noted we do evaluations every other year. Winborn asked, due to Covid, if we could have another evaluation next year to see if things have changed. If it weren't for the unknown, Winborn stated, I think we would have done something different. Cooper stated we can review her salary anytime. Brotherton agreed with both; with the situation as it is, we are impressed with the job McNair is doing and would like to compensate her, but under the circumstances it is best to match it to staff this year and seeing how it goes. Cathey was unclear what direction the committee was taking. Brotherton noted he felt waiting a year to re-evaluate or look at salary because we don't know what the reverberation will be from Covid. Cooper agreed. Cathey reiterated, you are wanting to wait a year however we have the option of doing it earlier if we choose. Cooper stated that was correct. Cooper added, as a board, we can look at the budget at any time during the year. If we feel we need to make changes, we can.

McNair thanked the committee for the evaluation and support. She stated the leadership the entire Board provides is very beneficial to her in helping her do her job. She did ask, if things recover sooner that the committee look at her salary due to the fact she lags so far behind everyone else. Under the circumstances, she is hopeful we get the 1.5% increase for staff as they do deserve it. The amount needed to cover the 1.5% is a small number regarding the overall budget.

McNair did note she is ok with constructive criticism and if there is something the Board needs her to do, she would appreciate hearing about. Each of our counties are very different and we want to be cognizant of that and work with you all with your different perspectives. Cooper felt McNair takes constructive criticism on an ongoing basis, which resulted in a great evaluation.

Cooper requested a motion to forward the evaluation to the Board with a recommendation to tie McNair's salary to whatever increase staff receives during the budget process. Also, note the Board will review the salary again in a year, if not sooner. Brotherton asked if there is any formal wrap up

of this conversation and evaluation for McNair file. McNair noted she typically saves the summary report in the file.

Brotherton moved to forward the evaluation to the Board with a recommendation keeping salary tied to staff increase. The motion was seconded and carried unanimously.

Cooper reminded the committee the second half of that would be to discuss with the Board the review of McNair's salary in a year, if not before, once we have a better understanding of the Covid situation. Winborn agreed to make that a motion. It was seconded and carried unanimously.

ADJOURNMENT

The meeting adjourned at 8:57 a.m.

Community Toxics Project Summary

- Primary objective:
 - Evaluate the level of hazardous air pollutants associated with woodsmoke PM_{2.5}
- Secondary objective:
 - Improve and evaluate acrolein measurement methods and provide students with research opportunities

Community Toxics Project Summary

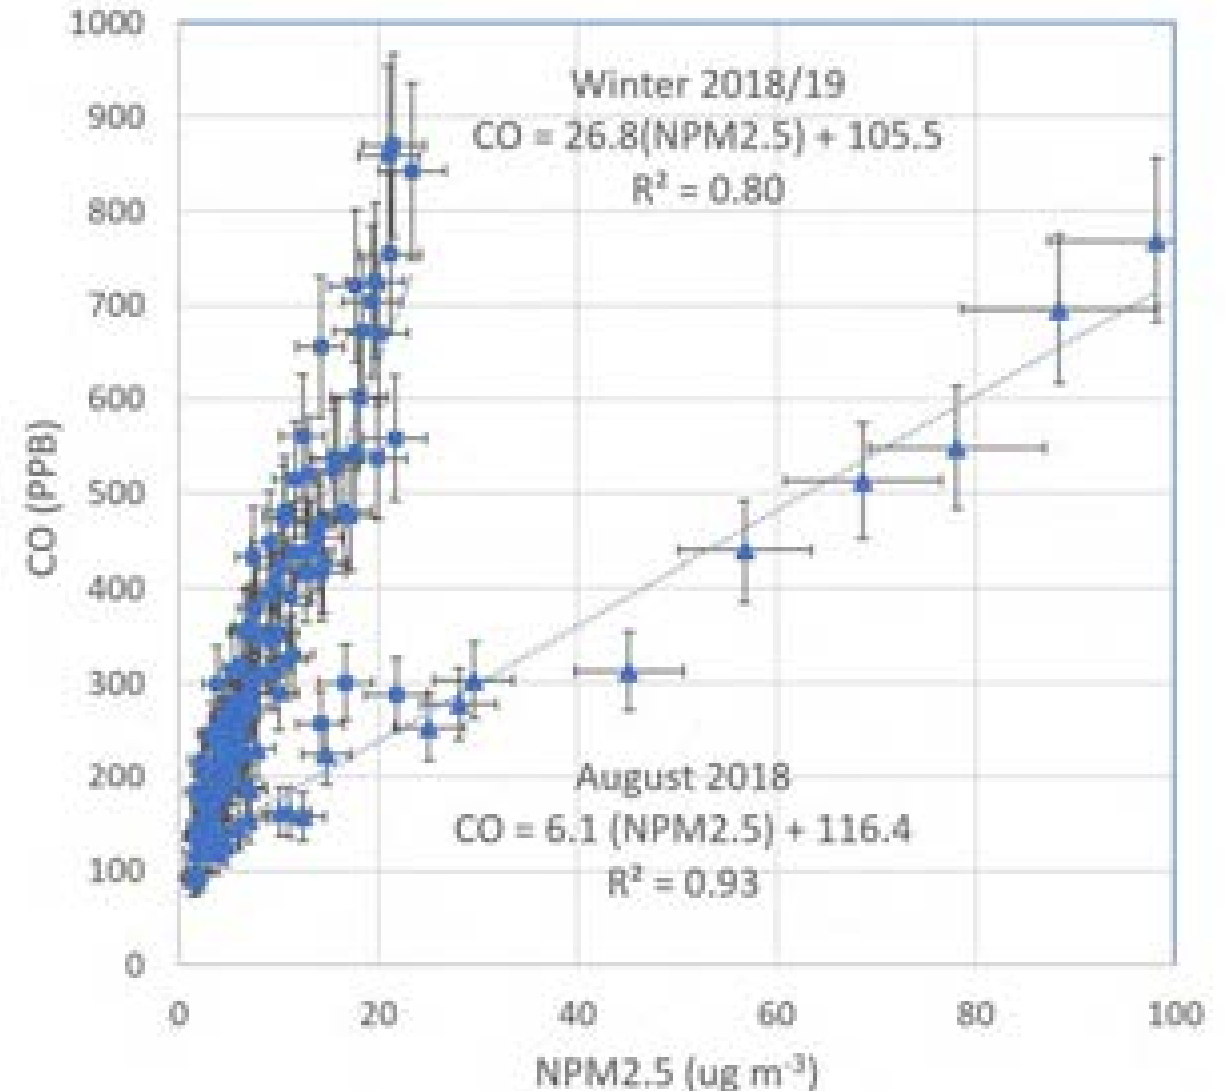

- Collected air samples at the Lacey monitoring site between August 2018 and May 2019
- Used positive matrix factorization to identify 5 primary sources of PM_{2.5}, CO and various toxic compounds
- Focused on: benzo(a)pyrene, naphthalene, benzene, and acetaldehyde as most likely to negatively impact human health
- Assessed hazardous air pollutants (HAPs, toxics) relative to woodsmoke PM_{2.5} and CO

Community Toxics Project Summary

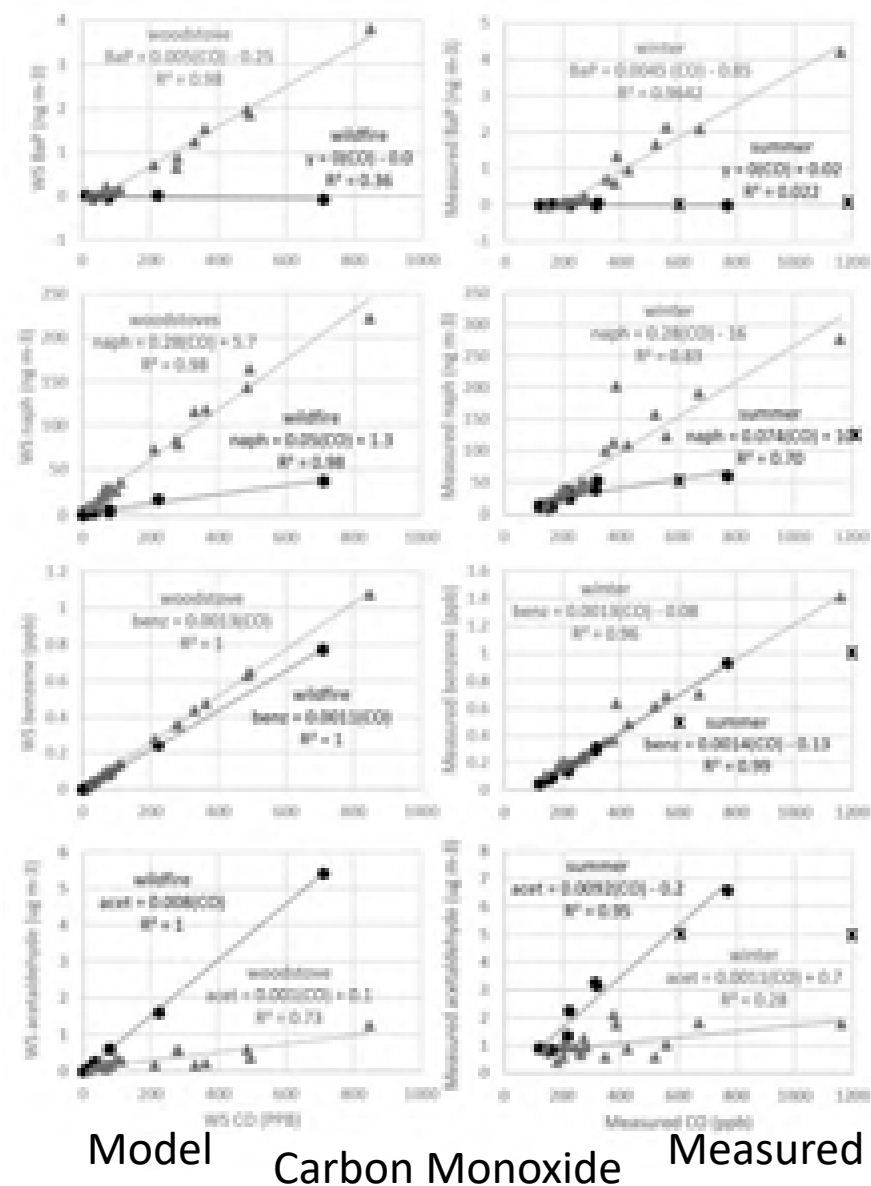

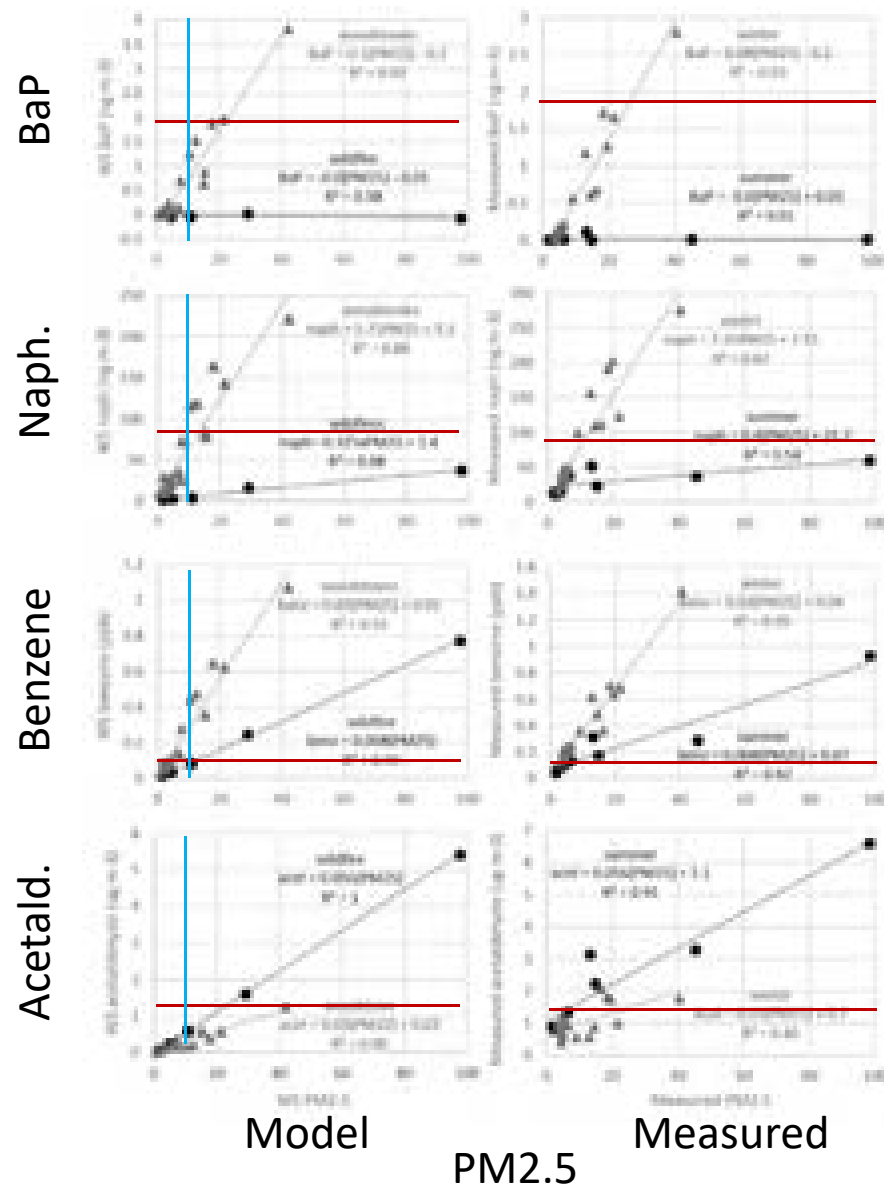

Community Toxics Project Summary

- Carbon monoxide and PM2.5 are highly correlated
 - Share the same pollution sources
- Relative to PM2.5 wildfires emit less carbon monoxide than wood stoves

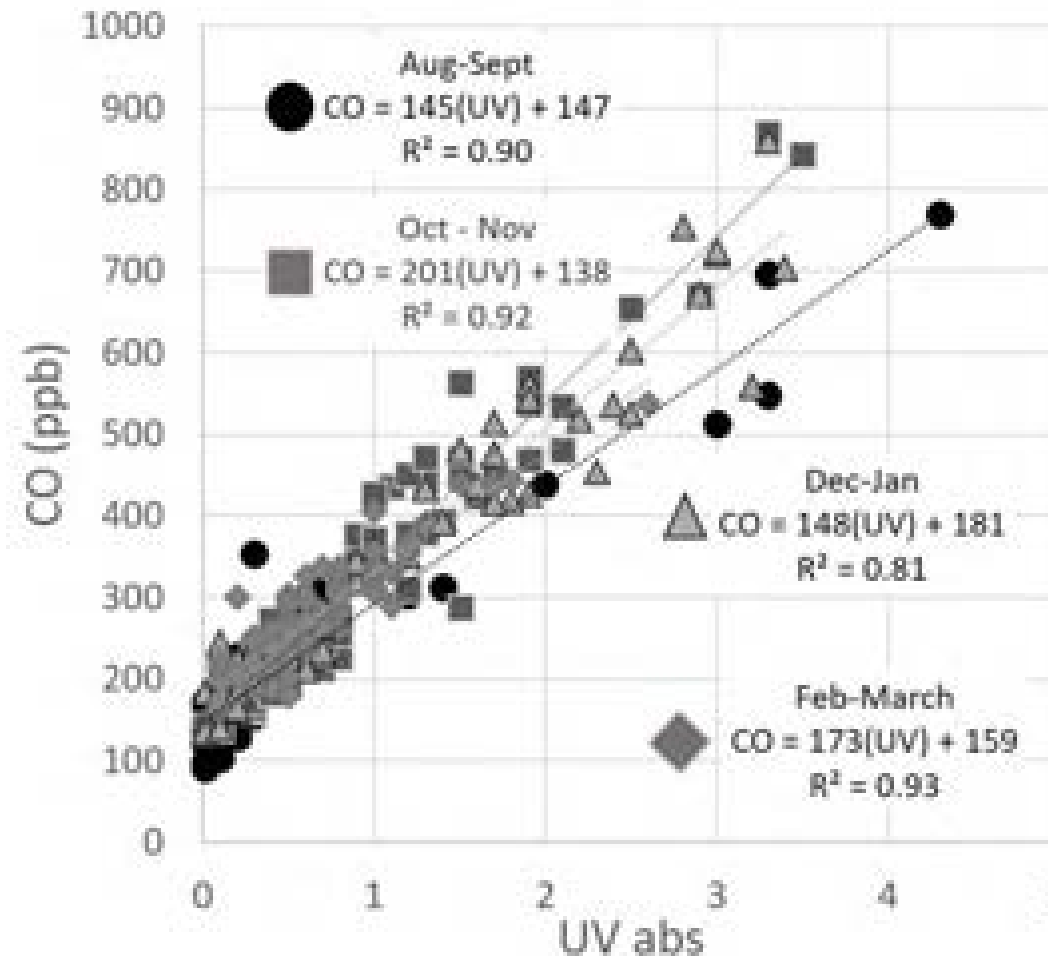

Community Toxics Project Summary

Community Toxics Project Summary

- UV absorption indicates the presence of PAH
- CO and UV are highly correlated
- The CO and UV relationship is the same in summer and winter
- Indicates that PAH are transformed (oxidized) but still present in wildfire plume
- Oxidized PAH more toxic

Naphthalene

1,4-Naphtoquinone

Community Toxics Project Summary

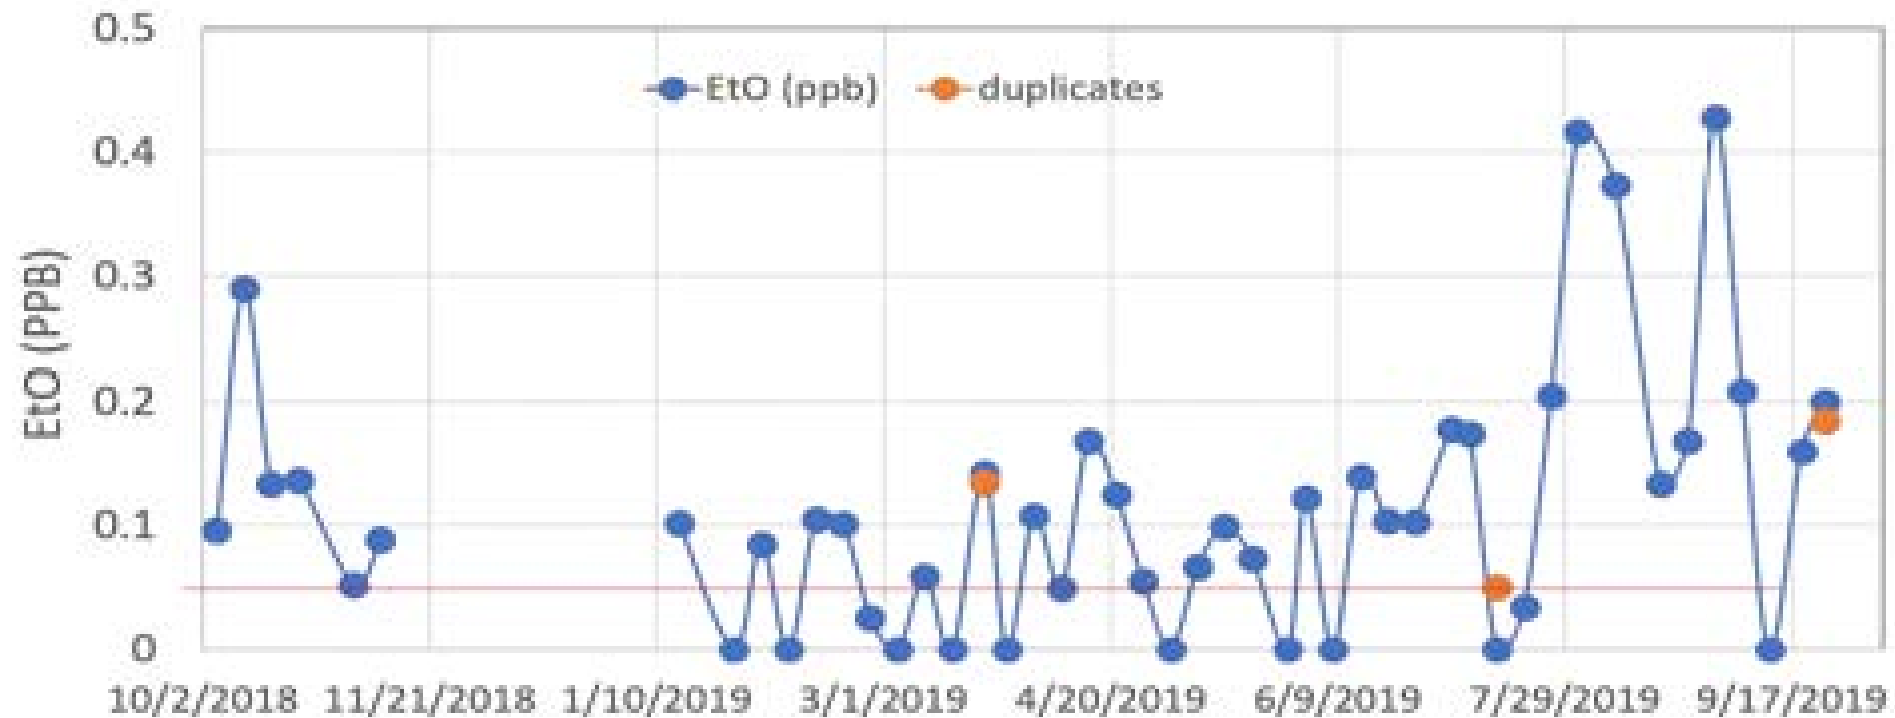

- HAPs will exceed the carcinogenic screening levels for several pollutants at woodsmoke PM_{2.5} equal to the annual NAAQS
- HAPs are unlikely to reach levels considered to be an elevated cancer risk at the annual PM_{2.5} NAAQS
- CO monitoring may be a good proxy for benzene, where sources are limited

Community Toxics Project Summary

- Students developed a method for acrolein sample collection and analysis
- Preliminary evaluations were conducted, but not finalized due to COVID restrictions and accessing the lab
- Preliminary results indicate a higher sensitivity to acrolein compared to the current method
- Detailed description of their work is included in the EPA final report

Community Toxics Project Summary

- Ethylene Oxide was added to the list of analytes after the project started
- Found in Lacey at levels similar to those in Seattle and above the CRSL
- Working with the Dept. of Ecology on pilot study to assess EtO levels in WA

Air Quality Monitoring Summary

October & November 2020

Odelle Hadley, PhD

October 2020 Air Quality Summary – PM2.5

	Minimum	Average	Maximum	GOOD	MOD	USG	UH	VUH
Aberdeen	1.8 $\mu\text{g m}^{-3}$	5.9 $\mu\text{g m}^{-3}$	12.3 $\mu\text{g m}^{-3}$	31				
Cheeka Peak ¹	0 $\mu\text{g m}^{-3}$	1.4 $\mu\text{g m}^{-3}$	3.6 $\mu\text{g m}^{-3}$	23				
Lacey	1.8 $\mu\text{g m}^{-3}$	6.3 $\mu\text{g m}^{-3}$	13.9 $\mu\text{g m}^{-3}$	28	3			
Port Angeles ²	3.4 $\mu\text{g m}^{-3}$	8.1 $\mu\text{g m}^{-3}$	16.4 $\mu\text{g m}^{-3}$	20	4			
Port Townsend	3.1 $\mu\text{g m}^{-3}$	5.7 $\mu\text{g m}^{-3}$	11.9 $\mu\text{g m}^{-3}$	31				
Shelton	1.0 $\mu\text{g m}^{-3}$	6.3 $\mu\text{g m}^{-3}$	12.8 $\mu\text{g m}^{-3}$	31				
Raymond	1.5 $\mu\text{g m}^{-3}$	5.3 $\mu\text{g m}^{-3}$	16.6 $\mu\text{g m}^{-3}$	31				

- 1) Monitor needed calibration
- 2) Instrument replacement needed

November 2020 Air Quality Summary – PM2.5

	Minimum	Average	Maximum	GOOD	MOD	USG	UH	VUH
Aberdeen	2 $\mu\text{g m}^{-3}$	6 $\mu\text{g m}^{-3}$	11 $\mu\text{g m}^{-3}$	30				
Cheeka Peak ¹	0 $\mu\text{g m}^{-3}$	1.5 $\mu\text{g m}^{-3}$	6 $\mu\text{g m}^{-3}$	27				
Lacey	2.2 $\mu\text{g m}^{-3}$	5.8 $\mu\text{g m}^{-3}$	15.4 $\mu\text{g m}^{-3}$	28	2			
Port Angeles	4.2 $\mu\text{g m}^{-3}$	8.4 $\mu\text{g m}^{-3}$	15.6 $\mu\text{g m}^{-3}$	27	3			
Port Townsend	2.9 $\mu\text{g m}^{-3}$	5.1 $\mu\text{g m}^{-3}$	8.4 $\mu\text{g m}^{-3}$	30				
Shelton	2.1 $\mu\text{g m}^{-3}$	7.6 $\mu\text{g m}^{-3}$	17.2 $\mu\text{g m}^{-3}$	24	6			
Raymond	1.2 $\mu\text{g m}^{-3}$	6.2 $\mu\text{g m}^{-3}$	12.4 $\mu\text{g m}^{-3}$	30				

1) Data logger didn't boot properly after short power loss

Other Monitoring News

- 1 visit to Cheeka Peak with Dept. of Ecology for audit
 - A negative COVID-19 test is now required to access CPO
- 3 trips to Port Angeles in October
 - Replaced monitor, installed room temp probe
- Finalizing Community Toxics report to EPA (significant time)
- Chaired NW Airquest October meeting
- Several follow-up meetings to discuss cross-agency coordination during future wildfire smoke events
- Started evaluating other low-cost air sensors
- Working with Dan to provide sensor guidance on web-site
