NOTICE OF VIOLATION

No. **4641**

Name: WASHINGTON CORRECTIONS CENTER **Phone:** (360) 432-1508

MailingAddress: PO BOX 900, SHELTON, WA 98584

Location of Violation: 2321 W Dayton Airport Rd, SHELTON

Date of Violation: On or about June 13, 2023 **Time:**

In Violation of:

Rule 6.1(a)	(a)Approval of a Notice of Construction (NOC) Application required. It is unlawful for any person to cause or allow the following actions unless a Notice of Construction application has been filed with and approved by the Agency, except for those actions involving stationary sources excluded under Rule 6.1(b) and (c): (1)Construction, installation, or establishment of any stationary source; (2)Modification to any existing stationary source; or, (3)Replacement or substantial alteration of emission control technology installed on an existing stationary source

Findings:

During the compliance inspection for Washington Corrections Center (WCC) on June 13, 2023, I observed a composting unit that did not match the composter originally approved under Notice of Construction 10NOC788. The Notice of Construction application 10NOC788, was conditionally approved by ORCAA for the installation of a BW Organics Model 808 drum composter. During the inspection, I observed a DTE Environmental Enviro Drum In-Vessel Composter, Model 6-20 and the BW Organics composter had been removed from the facility. The BW Organics composter was previously observed by ORCAA during the previous inspection on June 13, 2019. The installation of the new composter required prior approval from ORCAA through a Notice of Construction application.
