Hello. I wanted to give you a status update on your application for the continuous dry kiln project. As we discussed, I consulted with EPA Region 10 on the proposed BACT determination and they contacted us yesterday that they have comments on the project. EPA is currently drafting their comments and while they couldn't definitively say when they would be done, based on our conversation I am hoping to have them within the next two weeks.

I'll forward their comments to you expeditiously when we receive them.

Sincerely,

Aaron Manley, P.E.

Engineer II
