2024-0214 Weyco Raymond CDK to Ecology.xlsx;

Gary,

Links below include the final Health Impact Assessment for installation of the continuous direct fired kiln at Weyerhaeuser's Raymond facility. This HIA has been updated with new emission rates for Arsenic modeling, showing modeled arsenic concentrations from the project less than the ASIL.

HIA Report: <https://files.trinityconsultants.com/link/51qMyffcj57UR99YnXqKXN>

Arsenic Models (only updated model from historical submissions):

<https://files.trinityconsultants.com/link/7sCEcb2cKM8ryIzVZVBgIT>

Trinity, ORCAA, and Weyerhaeuser will be meeting tomorrow to discuss the application and any potential concerns. Please let me know if you have any questions or concerns on the HIA.

Best,
Beth
