*RE: Synthetic Minor Limit Request*

Dear Mr. Manley:

Weyerhaeuser NR Company (Weyerhaeuser) owns and operates a softwood lumber mill in Raymond, Washington (the Facility). The Raymond mill currently operates under Olympic Region Clean Air Agency (ORCAA) Air Operating Permit (AOP) 12AOP915. Weyerhaeuser recently proposed the addition of new continuous dry kilns (CDK) to replace the eight existing batch kilns used in the lumber drying process under NOC application 23NOC1614.

Weyerhaeuser is requesting an approval for a VOC synthetic minor limit of 249 tons per year for the Facility. This would stand only for the interim period between when the existing batch kilns are still running while commissioning the CDK. Weyerhaeuser would then like to request the removal of said synthetic minor limit after the batch kilns are shut down because the Facility will then become a true minor source.

If you have any questions or comments about the information presented in this letter, please do not hesitate to call Angela Cameron at 360.414.3464.

Sincerely,

Weyerhaeuser NR Company
